

FOR IMMEDIATE RELEASE

Delta's Nachtwey Presents at Fluid Power Conference 2013

May 13, 2013 – Battle Ground, WA – Delta Computer Systems, Inc. is pleased to announce that Peter Nachtwey, Delta's President will deliver a technical presentation about ***Closed-Loop Control with Practical Second Order System Considerations*** at the Fluid Power Conference and Expo held at the Milwaukee School of Engineering in Milwaukee Wisconsin during June 11 and 12, 2013. This MSOE located conference gives OEMs, end users and distributors the opportunity to learn about the latest fluid power technology in a city known for Fluid Power related manufacturing.

“We are pleased to co-exhibit at this conference with long time Delta distributor and solutions provider, **J.M. Grimstad Inc.**, as we both continue the process of updating the Fluid Power Industry about motion control innovations and practical closed loop applications.” stated Delta CEO, Steve Nylund. “Motion control for hydraulic, pneumatic and hybrid applications continues to help improve production and quality for industry in the Midwest, North America and the rest of the world,” Nylund added.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, food, energy, automotive, entertainment, plastics, materials, aerospace, metals, forest products and others

About Delta Computer Systems: For more than 30 years, Delta has supplied motion controllers, color sensors, and other utility and industrial products that enable OEMs & integrators to build better machines. For more information contact Bill Savelle, Delta Computer Systems, Inc. 1818 SE 17th Street, Battle Ground, WA. 98604. P 360-254-8688, fax 360-254-5435, or email technicalsales@deltamotion.com. Editor: Please indicate MSOE Fluid Power Expo.
