

FOR IMMEDIATE RELEASE

Network Administrator Geoff Richards Joins Delta Computer Systems, Inc.

September 25, 2019 - Delta Computer Systems, Inc. of Battle Ground, Washington, is pleased to welcome Geoff Richards as part of its headquarters staff. Mr. Richards will be responsible for the availability, reliability, and security of Delta's computer infrastructure and data. Geoff joins Delta after many years as the System Administrator and Technical Specialist for a large multi-office legal firm. His experience providing reliable and secure information services will be valuable as Delta continues to expand in size and global sales.

Geoff retired as a sergeant from active duty with the U.S. Army, where he served in Honolulu, Hawaii. He obtained a degree in Information Technology and Computer Network Systems in Portland, OR, and held positions of increasing responsibility before taking on the challenge of a large multi-user, multi-location legal practice.

"Mr. Richards brings strong experience with securing critical user data and maintaining reliable access to business systems. These skills are critical to Delta's ability to provide responsive technical support as we continue to expand our business around the world," says Steve Nylund, Delta Computer Systems CEO. "We also appreciate Geoff's ability to communicate technical concepts clearly and with a pleasant demeanor."

About Delta: For more than 35 years, Delta has supplied motion controllers and other industrial products that enable better performing machines. Delta's RMC Motion Controllers are used for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis control and testing applications.
